KEY INVESTMENT HIGHLIGHTS

Comprising a freehold land area of 6,497* hectares and alpine lease land (Agricultural Licence) area of 24,795* hectares (31,292* hectares combined), the opportunity represents a renowned premium cattle breeding and backgrounding property, located in the pristine Victorian Alps.

Currently leased to Stone Axe Pastoral Company with a current annual rent of \$3,165,000* (10-year lease commencing March 2019 plus options). Further information is available within the data room

An estimated carrying capacity of 50,000* Dry Sheep Equivalents (DSE).

High-quality operational infrastructure includes a 500* head cattle yard complex, undercover work area, eight-way draft, electronic recording system, veterinary room and staff facilities, as well as extensive rural shedding. Fencing is of a high standard with a central laneway system providing internal access as well as the extensive road frontage and various access points.

Accommodation includes a circa 2003 architecturally designed homestead (1,200* square metres) with five bedrooms, five bathrooms, two powder rooms, lounge, formal dining room, large kitchen, games rooms and cellar. The homestead is set within Paul Bangay landscaped gardens and features expansive vistas across Cobungra Valley and surrounding rural land.

Further accommodation includes five dwellings utilised for staff accommodation.

Extensively developed with improved perennial and annual pastures in addition to sheltered grazing areas. Opportunity to generate a passive income stream via the ACCU scheme.

Secure water includes rainwater tanks, groundwater bores, three permanent mountain streams, more than 60* catchment dams and a network of concrete troughs.

Located in the pristine Victorian Alps, at the foothills of Mt Hotham, nine* kilometres from Omeo, 80* kilometres from Bairnsdale and 230* kilometres Melbourne, in East Gippsland, Victoria.

LOCATION

Cobungra Station is located in the pristine Victorian Alps, at the foothills of Mt Hotham, approximately nine kilometres west of Omeo.

The property follows and is traversed by the Great Alpine Road, a well-known tourist route navigating Victoria's High Country, directly connecting Wangaratta in north-east Victoria and Bairnsdale in East Gippsland.

Omeo provides limited retail, administrative and medical services, whilst Bairnsdale provides a more extensive array of amenities and services, including retail, financial, medical, education (primary and secondary), air services and all required agricultural services.

The property is favourably located in relation to the following towns:

Legend

- Subject Property (Freehold)
- Subject Property (Agricultural Licence)

LAND USE

Land use for Cobungra Station is broadly categorised as per the below table:

Land Use		
Classification	Area (ha*)	Proportion (%*)
Grazing (Improved)	2,226.00	34%
Grazing (Unimproved)	1,995.15	31%
Remnant Vegetation / Support	2,275.69	35%
TOTAL	6,496.84	100%

LIVESTOCK

Cobungra Station has an estimated carrying capacity of 50,000* DSE (calculated across both the Freehold and Agricultural Licence area (31,292* hectares)). The productive mix of pastures, grass species and land types permit varying stocking rates in different paddocks across the property. The property is a proven breeding and finishing platform given its 170* year history of cattle breeding and background in addition to the development of significant infrastructure to assist the livestock operation.

Historical cattle numbers (June 2023 - September 2025) are outlined below:

Month & Year	Jun-23	Jul-23	Aug-23	Sep-23	Oct-23	Nov-23	Dec-23	Jan-24	Feb-24	Mar-24	Apr-24	May-24	Jun-24	Jul-24
DSE*	50,582	45,367	47,225	46,714	48,764	50,135	50,597	50,994	49,635	49,413	52,236	38,420	38,458	38,403

Month & Year	Aug-24	Sep-24	Oct-24	Nov-24	Dec-24	Jan-25	Feb-25	Mar-25	Apr-25	May-25	Jun-25	Jul-25	Aug-25	Sep-25
DSE*	36,200	37,392	39,514	39,203	39,768	41,682	41,719	39,372	42,715	35,884	35,803	35,760	35,747	39,141

*approximately

Soil Types, Topography & Vegetation

Soil types across the property predominately comprise grey to brown clay loams over a granitic base, renowned for its high pH balance. The soil types are ideally suited to grazing with potential for conversion to other agricultural pursuits. Pastures comprise a mixture of native grasses and improved pastures such as cocksfoot, chicory, fescue and phalaris.

Topography is both moderately undulating and steeply sloping hills. The elevation of the freehold land ranges between 990* metres to 1,340* metres above sea level. Portion of the freehold land is cleared with scattered clusters of timber on some of the steeper elevations and adjacent water courses. The remainder of the land is covered with natural vegetation and infrastructure.

Paddocks, Laneways & Fencing

Cobungra Station has been divided into approximately 66 paddocks (with some smaller holding pens). The efficient layout and accessibility is a feature with a gravel-lined laneway system providing internal access to majority of the paddocks as well as extensive road frontages and access points.

Boundary fencing across the holding is stockproof and of a conventional style (some electrified outrigger arrangements). Certain paddocks have recently been divided or re-fenced, with arrangements typically consisting of steel maxi posts with three barbed and two plain wires affixed.

Water

Water across Cobungra Station is securely sourced via a number of independent sources including the Cobungra River, Victoria River and Dargo River as well as numerous groundwater bores.

A gravity-fed delivery system via header tanks reticulates water to 60* catchment dams and concrete troughs, ensuring sufficient livestock water.

Australian Carbon Credit Unit Opportunity

Cobungra Station presents a compelling opportunity to generate a passive income stream through participation in the Australian Carbon Credit Unit (ACCU) Scheme under the Carbon Credits (Carbon Farming Initiative) (Reforestation by Environmental or Mallee Plantings—FullCAM) Methodology Determination 2024. The Environmental Plantings method is one of the most robust carbon farming methods in Australia, rewarding projects that restore mixed-species native vegetation under permanence obligations of 25 or 100 years. Environmental Plantings carbon yields are modelled using the Full Carbon Accounting Model (FullCAM). Under FullCAM, areas of the property have an indicative sequestration rate of up to 40* tCO₂e per hectare per year. Several Environmental Plantings projects have already been established in the area, some of which have begun generating and receiving ACCUs, providing a strong local precedent.

Cobungra Station's fertile soils, reliable rainfall and favourable altitude conditions make it well suited to a mixed native revegetation program. Combined with proximity to existing registered carbon projects, this positions the property to benefit from participation in a premium segment of the ACCU market.

STRUCTURAL IMPROVEMENTS

Cobungra Homestead

Cobungra Station includes a prestigious, architecturally designed 650* square metre stone and cedar clad homestead built circa 2003. The homestead comprises a stunning residence that has been meticulously kept and features expansive vistas across Cobungra Valley and surrounding rural land.

Accommodation includes five bedrooms, five bathrooms, two powder rooms, lounge, formal dining room, large kitchen, games rooms and cellar as well as an internal courtyard which features a large stone fireplace. A large wraparound verandah covers approximately 329 square metres.

The homestead is fitted out with halogen downlights, underfloor heating, hydronic heating, integrated audio, double glaze windows, drapes, heated towel rails and stone benchtops.

The homestead is set within Paul Bangay designed landscaped gardens inclusive of mature garden beds, manicured lawns and established trees.

ACCOMMODATION

Manager's Residence

- Constructed circa 1960 (originally the Cobungra homestead).
- Single story dwelling.
- Five bedrooms, one bathroom, kitchen, laundry, living room, dining and office.
- Concrete slab footings with mud brick cladding, a corrugated galvanised iron roof and timber window frames.
- 320* square metres with an 84* square metre carport.

Staff Dwelling 1 (Stables House)

- Single story dwelling.
- Three bedrooms, one bathroom, kitchen, lounge room and laundry.
- Weatherboard cladding, concrete stumps, corrugated iron roof and aluminium windows.
- 108* square metres.

Staff Dwelling 2 (Stockman's House)

- Single story dwelling.
- Three bedrooms, one bathroom, kitchen, laundry and lounge / dining.
- Concrete slab footing with mud brick cladding, corrugated iron roof cladding and aluminium / timber window frames.
- 120* square metres plus 28* square metre carport and 18* square metre storage area.

Staff Dwelling 3 (Tollands Road House)

- Single story dwelling.
- Three bedrooms, one bathroom, kitchen, laundry and lounge / dining.
- Concrete slab footings with mud brick cladding, corrugated iron roof cladding and a mix of aluminium and timber window frames.
- 150* square metres.

Staff Dwelling 4 (Victoria Falls House)

- Single story dwelling.
- Concrete slab footings with mud brick cladding, colorbond roof cladding and aluminium and timber window frames.
- 220* square metres.

OPERATIONAL

Covered Cattle Yards/Workshop

- Steel frame, metal deck roof, metal deck cladding and concrete / earthen floor.
- Features an eight-way draft, steel rails, concrete race, bugle race, scales, loading ramp, horse enclosure and undercover working area with hydraulic crush.
- The open sided structure covers the station's main livestock yards, allowing for year-round handling.
- Yards can comfortably operate with 250* head (maximum capacity of 800* head (calves).
- Includes an office and lighting.
- 843* square metres (inclusive of workshop).

Hay Shed 1 (North Cattle Yards)

- Steel frame, metal deck cladding, metal deck roof and an earthen floor.
- Located to the north of the cattle yards with a five* metre clearance.
- 336* square metres.

Hay Shed 2 / Machinery Shed (South Cattle Yards)

- Steel frame, metal deck walls, metal deck roof and an earthen floor.
- Located to the south of the cattle yards with a five* metre clearance.
- Formerly used as a hay shed, now utilised as machinery storage.
- 258* square metres.

Hay Shed 3 (Near Goldie Paddocks)

- Six-bay shed.
- Steel frame, metal deck walls, metal deck roof and a gravel floor.
- Located near the second set of cattle yards.
- 450* square metres.

Stables

- Timber frame, corrugated iron cladding, corrugated iron roof and an earthen floor.
- The shed is laid out in a stable formation with three timber stable doors to the western side.
- 100* square metres.

Machinery Shed

- Timber frame, timber board walls, corrugated iron roof and earthen floor.
- 210* square metres.

SUNDRY STRUCTURES & ANCILLARY IMPROVEMENTS

- Gun club outbuilding
- Goldie paddock cattle yards
- Cone bottom solos (2 x 30* tonne)
- Contractors cabin
- Above-ground fuel storage
- Decommissioned shearing shed
- Cobungra cattle yards
- Homestead outbuildings
- Domestic shedding
- Typical sundry shedding

Inspections

Inspections will occur by appointment only, with approved parties and in the company of a LAWD agent.

Timetable

This timetable is provided to give parties an indication as to the timing of the sale process and maybe changed at the vendor’s sole discretion.

Stage One	Commences Wednesday 29 October 2025
Inspections (<i>with approved parties</i>)	From Wednesday 29 October 2025
Closing date for lodgement of non-binding offers	12pm (AEDT) Thursday 4 December 2025
Evaluation of non-binding offers	From Friday 5 December 2025

Lodgement of Offers

Offers must consist of, amongst other information, a non-binding cash offer for Cobungra Station.

Method of lodgement	Email
Information to be inserted within email ‘Subject’	LAWD – Cobungra Station
Email lodgement address	patrickkerr@lawd.com.au

SALE PROCESS

Evaluation Criteria

In evaluating the offers, a weighting may be assigned to any or all the criteria specified in the table below. There is no obligation to advise a potential party or parties of such weightings.

Preference will be given to cash offers which involve the highest price (in absolute terms) being paid in the shortest time. However, all offers will be considered.

Assessment Criteria

Offer

- Highest cash offer
- Quantum of deposit and timing of payment of the balance

Funding Capacity

- All details of the party / parties capacity to complete the transaction in the manner offered
- Details of how the party / parties intend to fund the acquisition, its funding source and track record in completing comparable transactions, together with an outline of any approvals and conditions relating to financing and / or acquisition

Other Considerations

- All details of whether the party requires Foreign Investment Review Board approval
- Any other matters which the vendor in its absolute discretion considers relevant to the assessment of the offer
